

Environmental Policy

Heraeus Electro-Nite is the world's leading supplier of measurement and control of molten metal.

Heraeus Electro-Nite (UK) Ltd understands the importance of the environment.

Heraeus Electro-Nite (UK) Ltd is committed to:-

- Meeting all applicable environmental legislation, including all requirements under any Environmental Permits.
- Preventing pollution from its processes and activities.
- Continually improving its environmental performance through the annual review of its key environmental performance indicators and setting objectives and plans for improvement.
- Maintaining a third party approved, ISO14001 Environmental Management System.
- Communicating the policy, objectives and improvement plans to all relevant employees to improve understanding and awareness.
- Reviewing the environmental policy annually to ensure its suitability based on changes in legislation, company strategy and best practice.
